S. Pennsylvania Ave.
Greensburg, Pa.

**Art Leather Covered or Quartered Oak Finish
Two Sizes**

THIS Portable Tool Case is popular with mechanics desiring several short drawers. The 20-inch length takes in an 18-inch scale, and will hold a large kit of tools. This case is substantially constructed of the best materials, finished in black Fabrikoid seal grain leather or quartered oak. The drawer fronts are of nicely figured quartered oak and handsomely finished. Drawer bottoms are felt lined and shellac finished throughout. Equipped with our self-hinging lid, having a felt lined tray. Trimmings, lock, handle, etc., are equal to our best.

**Art Leather Covered or Quartered Oak Finish
Four Sizes**

OUR "Standard" Toolmakers' and Machinists' Case. It has a convenient arrangement of different sized drawers—a place for every tool. A neater, more practical or compact tool case was never offered to the up-to-date mechanic. The lid is self-hinging, has a felt lined tray to lay tools on or can be slid under the bottom drawer. The workmanship, material and design can't be beat at any price. Drawer fronts are nicely figured and polished quartered oak, have sheet metal bottoms, felt lined, and trimmings are polished and nickeled.

**Art Leather Covered or Quartered Oak Finish
Two Sizes**

THIS Chest is the latest design on the market, and is made for the toolmaker and machinist who needs the greater capacity provided by its many drawers. An up-right drawer is for drill block or machinist's hand book. Seven short and three long drawers, all felt lined, provide conveniences not found in any other chest. Trimmings are the very best nickel-plated finish. A milled key lock is used, and the self-hinging front lid swings up and is locked with patented locking device. This is the finest and most desirable Tool Chest ever made.

WILL NOT DRAW MOISTURE AND RUST THEM

**Art Leather Covered or Quartered Oak Finish
Two Sizes**

A PORTABLE Tool Case that meets the requirements of pattern makers, cabinet makers or machinists who carry a 24-inch scale. It is substantially constructed and as light as possible without sacrifice of strength. Covered with the best imitation seal grain leather or finished in quartered oak. Fitted with nickeled trimmings and a comfortable, reinforced leather handle. All drawer bottoms and top compartment are felt lined. A good, strong lock securely locks all compartments. Front lid locks automatically with a patented device and slides under the bottom drawer.

Gerstner Tool Chests embody many superior features of construction. The following details are essential to high grade chests:

Frame or Body—Thoroughly seasoned, kiln-dried lumber of the best quality. All joints are lock-cornered or tongue and grooved; also reinforced with screws and nails. Gerstner Cases are built to "stand up" under any conditions.

Finish—Quartered Oak Cases are selected for figure, stained medium dark, and are hand-rubbed and polished. Covered Cases are finished in black seal grain leatherette and are very serviceable. They are neatly tooled, and there are no raw edges to come loose.

Drawers—Lock cornered and glued. We use rust-proof metal bottoms lined with dark green felt. Larger drawers have three-ply birch bottoms lined with felt. Drawers fit close, yet slide easily on hardwood slides and will not bind or stick. Drawer fronts are neatly beaded and rubbed to a nice finish.

Fittings—We furnish highly nickeled trimmings in harmony with the design of the Case. Top-till Cases have a patented, automatic locking device, so that just one lock closes entire case.

Locks—Open Top Cases are fitted with a combined catch and lock, having two milled keys. Other cases are fitted with nickeled cylinder locks.

Handles—Extra strong and comfortable leather handle reinforced with a steel rod through center. Strong loops are securely fastened to carry heavy weight.

Lids—All lids or doors are well paneled and will not warp or twist. Lids are self-hinging and do not rub on bottom of the Case when slid in under the bottom drawers.
